我们采用进口亚克力原材料，最大化的体现亚克力特性：1. 持久耐用；2. 具有杰出的亮度和流行色发挥；3. 高度透明；4. 可塑性强，满足多层工艺的要求。

We adopt imported acrylic raw materials, to maximize the embodiment of acrylic characteristic s: 1 Durable; 2 Outstanding brightness and popular color play; 3 Highly transparent; 4 Dlasticity strong to meet requirements of a variety of process. 5 A variety of surface treatment.

耐用持久，它的重量仅是玻璃的一半，但抗冲强度是玻璃的11倍，并可以接受住粗放的作业方式并易于加工，全新的效果和形状惊艳到你面前，材质性能稳定，几乎不会发生变化，无需像其他塑料制品一样定期替换，成为家具、展示信息、设计或是销售内容都能达到你所期望的。

Durable: Its weight is only half of the glass 11 times, but the impact strength is glass, and can withstand extensive operation and easy processing, new effects and amazing shape in front of you, the material performance is stable, almost no change, no need to like other plastic products as regular replacement. A furniture, display information, design or sales content can meet your expectations.

厚度，它有着1-50MM不同的厚度，一定厚度材料可以满足一体成型产品如首饰摆件、产品陈列底座，无论厚薄透明度不变，这是个挑战，可能没有一种材质可以达到这样的适用度。

Thickness: With 1-50MM different thickness, which can meet the integrated products, such as jewelry and ornaments, product display base, regardless of the thickness, its transparency unchanged. This is a challenge, may not have a material can achieve the applicability of such.

色彩，初始材料完全无色，这下是它的魅力所在，它可以耐加上多种魔术般的色彩，此外，色彩还能通过照明灯光与不同表面之间的相互作用得到增强，墙面装饰、陈列品、展柜、衣柜、灯具、隔板以及展示用具无不成为目光的焦点，与透明无色更是永久的结合，提供了一种外观高雅和视觉深度的全新体验

Color: the initial material is completely colorless, this is the charm of it, it can be attached to a variety of magical color. In addition, the color can be enhanced through the interaction between lighting and different surface, wall decoration, display, showcase, wardrobe, lamps, partitions and display
